

Roto-Rooter Opens New Dayton Facility

New Branch Features Custom-Built Space, State-of-the-Art Plumbing School

For Immediate Release

Contact: Allison Schroeder at Roto-Rooter HQ: 513-762-7336.

Cincinnati, OH– June 10, 2014 – North America’s largest provider of plumbing and drain cleaning services has unveiled its newest freestanding facility servicing the Dayton, Ohio market. Located on Byers Road near Austin Landing, the built-to-suit Dayton Branch features a state-of-the-art plumbing school, teaching space for more than 150 people, 6 drive-thru equipment bays and an industrial sized drive through wash bay for vehicles and equipment.

The new 30,000 square foot, \$6.1 million facility will serve as the prototype for future Roto-Rooter branch offices and its design will be duplicated in other cities in coming months. This is the first freestanding facility built since 1993. Since then, the company has opted to lease existing space for its branch and contractor locations.

To celebrate the new facility, a ribbon cutting has been scheduled for Tuesday, June 17th at 10am, followed by an afternoon open house including tours of the facility. RSVPs are encouraged by emailing: Allison.schroeder@rrsc.com.

The Dayton Roto-Rooter branch serves residential and commercial customers in 17 Ohio Counties (Montgomery, Greene, Fayette, Clark, Preble, Clinton, Highland, Adams, Miami, Darke, Champaign, Logan, Shelby, Auglaize, Hardin, Allen and Putnam.) Manager Ron Degner has previously managed Roto-Rooter’s Columbus, Ohio branch. It employs more than 70 team members.

LM Construction Solutions of Lexington, Kentucky served as the construction management representative to oversee the development process and Core Resources of Cincinnati was the general contractor.

About Roto-Rooter

Roto-Rooter was established in 1935 and is the largest provider of plumbing and drain cleaning services in North America. Roto-Rooter operates businesses in more than 115 company-owned territories and more than 500 franchise territories, serving approximately 90 percent of the U.S. population and 41 percent of the Canadian population.
